

WEP850 BLUETOOTH® HEADSET

AWEP850JSECSTA
SPECIFICATION SHEET

For those who insist on the best, only the WEP850 Premium Mono Bluetooth Headset will do. Earning honors in design and engineering from International CES, the WEP850 blends innovative technology with luxurious style.

This cutting-edge headset uses Multipoint Technology, allowing direct connectivity between the WEP850 and two Bluetooth-enabled devices simultaneously and simply. With a hands-free profile, just switch your headset's connection from one device to another; there's no need to turn the WEP850 off and on again. Advanced DSP dual-microphone technology for noise cancellation and echo reduction make audio quality noticeably clearer. The headset eliminates unwanted background noise for the called party along with any annoying echo. Plus, it offers the latest version of Bluetooth technology that extends talk-time use, provides more than one week of standby time, and simplifies pairing with your phone.

The WEP850 is also among the elite for high style and comfort. The luster of the pearl gray lacquer finish with diamond-cut accents complements your most exquisite jewelry, fashion eyewear, and high-end writing instruments. The ultimate in comfort, the WEP850 feels as good as it looks. Sleek to the touch, the headset includes a transparent crystal ear hook that is unobtrusive and easily removable. Industry-acclaimed, the WEP850 earns its mark of distinction.

FEATURES

- Multipoint Technology for connecting to two mobile phones
- The newest version of Bluetooth
- Advanced audio technologies for crystal-clear calls

- User Manual
- Quick Start Guide

Bluetooth Headset Pairing Instructions

1. When you turn on your Samsung Bluetooth headset for the first time, it proceeds into pairing mode immediately.
2. If you have paired the headset with other Bluetooth devices, make sure that the headset is off. Press and hold the Multi-Function button until the blue indicator light stays solid blue after blinking.
3. Set your Bluetooth phone to discover the headset by following your phone's guide. Typically, the steps involve going to a 'Setting', 'Connection', or 'Bluetooth' menu on your phone and then selecting the option to discover Bluetooth devices.
4. Your phone will find the Samsung headset and ask if you want to pair with it. Confirm this by pressing the Yes or OK key.
5. Enter a passkey or PIN, 0000 (4 zeros), then press the Yes or OK key.
6. If pairing was successful, the Indicator light will flash in blue 10 times rapidly before going to flashing every 6 seconds. If unsuccessful, the light remains on, and you will need to re-attempt pairing.
7. When you turn on your headset after pairing with the phone, the headset is automatically connected to the phone.
8. When you turn on your phone after pairing with the headset, the phone is connected to the headset by pressing the Multi-Function button.

"number one in brand loyalty seven years in a row"

Samsung mobile phones have been rated number one in brand loyalty by consumers seven years in a row, according to Brand Keys, a leading independent authority on brand loyalty.

* Many of the services and features described above are network dependent and may require additional subscription and/or usage charges. Not all features are available for purchase or use in all areas. Other conditions and restrictions apply. See carrier for more information. All talk and standby times are approximate. Battery performance depends on network configuration, signal strength, operating temperature, features selected, and voice, data, and other application usage patterns.
